

We did it again!

Two years in a row!

Top 50

Cardiovascular Hospital in the Nation.

by IBM Watson Health™

Shasta Regional Medical Center for the second year in a row, was named one of the nation's 50 Top Cardiovascular Hospitals by IBM Watson Health™. The study spotlights the top-performing cardiovascular hospitals in the U.S. based on a balanced scorecard of publicly available clinical, operational and patient satisfaction metrics and data.

This study is part of the IBM Watson Health 100 Top Hospitals® program, using independent and objective research to analyze hospital and health system performance in key clinical and operational areas for selected cardiovascular procedures and medical care.

The top performing hospitals demonstrated better clinical care and were more efficient than their peers at delivering this care.

Based on the results of this year's study, we extrapolate that if all Medicare inpatients received the same level of care as those treated in the award-winning facilities:

- More than 11,000 additional lives could be saved;
- More than 2,800 additional heart patients could be complication-free; and
- Over \$1.5 billion could be saved.

When minutes matter, choose
**Shasta Regional
Medical Center.**
